SUMMARY

B.Tech Computer Science (AI & ML) student, skilled in creating responsive and user-friendly web applications using MERN stack. Seeking an entry-level role in AI/ML or Software Development where I can apply my technical skills and grow as an engineer.

SKILLS

- **Programming Languages:** C++, Python
- **Core Concepts & Tools:** DSA, OOPS, DBMS, Version control with Git & GitHub, Docker, VsCode
- **Frontend & Backend Development:** Html, Css, React.js, Node.js, Next.js, Typescript, REST APIs
- **Databases:** SQL, MongoDB
- **Soft Skills:** Analytical Thinking, Adaptability, Time Management, Continuous Learning.

PROJECTS

Food Delivery Website | Python, React.js, FastAPI, MongoDB

- Developed a responsive full-stack food ordering platform featuring JWT-based user authentication, real-time order placement and advance booking, delivering a seamless end-to-end user experience.
- Developed RESTful APIs for order management and user authentication using FastAPI.
- Integrated an AI-powered chatbot, automating responses to common queries and improving response time.

AI-Powered Resume Optimization & Hiring Platform | React.js, Node.js, AI tools

- Built an AI-driven resume optimization platform that parses resumes, extracts keywords using NLP, and scores them against job descriptions to surface missing skills.
- Automated job-specific resume generation by implementing a keyword-matching pipeline, reducing manual resume tailoring effort by over 60%.

Skill Barter Platform | React.js, Node.js, MongoDB

- Designed and developed a full-stack skill exchange platform enabling 2+ users to trade skills via a credit-based system, removing the need for monetary transactions entirely.
- Implemented secure JWT authentication, real-time chat, intelligent skill-matching logic, and scheduling features.

EDUCATION

Bachelor's Degree at Dronacharya Group Of Institutions (CGPA : 7.7/10)	2022-2026
Class 12th from Sunbeam School (88.4%)	2021
Class 10th from Gyan Kunj Academy (81.4%)	2019

ACHIEVEMENTS & CERTIFICATIONS

- Solved 200+ coding problems (LeetCode, HackerRank)
- C Training – Spoken Tutorial Project (IIT Bombay)
- Cyber Security Workshop – Cisco
